Social Additionality Plan

SUMMARY

This document is a product of careful consideration by the Developer, outlining the Project's strategic initiatives to generate social additionality. It contains all objectives and actions to be attained and pursued in the four years period. It also consolidates the benefit-sharing mechanism to be implemented in agreement with the Project's stakeholders.

Benefit-Sharing Mechanism	10
1. Applicable laws and regulations on benefit-sharing for IPLCs	10
2. Summary of benefit-sharing mechanism	10
3. Benefit-sharing arrangements and schedule	10

Introduction

SCOPE

Developers must carefully consider each community group, their Livelihood components, and the associated scores, objectives and interventions. They must then detail the planned interventions in this Social Additionality Plan.

The Plan will undergo a comprehensive update every four years, allowing the Developer to establish new objectives or determine whether to continue pursuing existing ones, considering their relevance to the Project or the need for additional time to accomplish them.

💡 Any leakage-related objectives and interventions outlined in the [Leakage Mitigation Declaration](#) must be informed and detailed in the Social Additionality Plan below.

💡 Any NTFP-related interventions in the Social Additionality Plan must adhere to the Non-Timber Forest Products (NTFPs) principles in the [M001 - Methodology for Terrestrial Forest Restoration](#).

💡 If IPLCs are among the Stakeholders concerned by the Project, the Developer must ensure that the Social Additionality and benefit-sharing Plans were developed following the FPIC Principles, as described in the [ERS Programme](#).

Social Additionality *Plan*

SUMMARY OF SOCIAL ADDITIONALITY PLAN

Write an overview of the Social Additionality Plan, including overall objectives and interventions, main stakeholders impacted and outcomes. This section will be included in the Project Design Document.

1. Local Stakeholder Mapping

 Provide a summary of the identified Stakeholders below. If possible, provide an organigram to demonstrate how the Developer, the team (coordination, management, implementation), and the Stakeholders will be involved in the Project.

If the Project does not have IPLCs amongst its Stakeholders, the Developer must declare it in the box below.

- No** IPLCs were identified amongst the Project's Stakeholders.
- IPLCs **were** identified amongst the Project's Stakeholders.

Name	Relevance to the Project	Representative
<i>Enter the Stakeholder name.</i>	<i>Enter their relevance to the Project (live in/near the area, hold the carbon credit rights, etc.)</i>	<i>Enter the Stakeholder representative(s) and their contact details.</i>

2. Applicable legal framework

Insert a brief explanation and reference of every legislation, convention, treaty, and/or agreement applicable to the Project's jurisdiction concerning IPLCs.

3. Four-Year Objectives Summary

Insert a summary of the four-year objectives validated during the Community Consultation on Livelihoods.

4. Objectives & Interventions

 Use the box below to write the objectives and their affiliated interventions. One table must be used per intervention plan. If an objective entails multiple interventions, use multiple tables. Tables can be added as needed.

If an intervention from the [Restoration Plan](#) has social implications, such as changing land use and creating alternative livelihoods or jobs, it should also be reported in the Social Additionality Plan.

**Objective 1:** Name the Objective

Intervention 1: Describe the intervention	
Communities	<i>List the communities concerned by the intervention.</i>
Timeline	<i>Expected timeline.</i>
Activity type	Other Livelihood Activity ▾
Activities description	<i>Describe the actions involved.</i>
Rationale	<i>Describe the assumptions and expected outcomes of the selected interventions. If following any legal framework requirement, explain the legislation/treaty/convention concerned and how this intervention contributes to it.</i>
Expected outcomes	<i>Detail the expected outcomes.</i>
SDG(s)	<i>When one or more Sustainable Development Goals (SDGs) relate to the expected outcomes, include them in this section. Detail the specific UN SDG 2030 Target(s), using the official UN Global Indicator Framework as a reference.</i>
Risks	<i>Describe the potential risks of this intervention.</i>

Indicator(s)	<i>Select one or multiple indicators to monitor the intervention's progress towards the Objective. For each indicator, include a description and the unit used.</i>
Monitoring methodology	<i>Describe the methodology used to monitor the intervention's progress. This must include the method of collection of information and identification of the organisation or individuals involved in the collection.</i>

Objective 2:

Intervention 2:	
Communities	
Timeline	
Activity type	Other Livelihood Activity ▾
Activities description	
Rationale	
Expected outcomes	

SDG(s)	
Risks	
Indicator(s)	
Monitoring methodology	

**Objective 3:**

Intervention 3:	
Communities	
Timeline	
Activity type	Other Livelihood Activity ▾
Activities description

Expected outcomes	
SDG(s)	
Risks	
Indicator(s)	
Monitoring methodology	

NTFPs *Activities*

- The Project **does not** encompass NTFPs activities.
- The Project **encompasses** NTFPs activities.

1. Applicable laws and regulations on NTFPs.

- The Project **is not** subject to any law or regulation concerning NTFPs.

Insert all applicable laws, regulations and agreements concerning NTFPs applicable in the Project's jurisdiction. Describe how the NTFPs Activities comply with it/them.

2. Summary of NTFPs Activities

Write a summary of the activities, including overall species and products used.

3. Detailed NTFPs Activities

Product Name:

Activity:	
Beneficiary Communities	<i>List the communities benefiting from the product..</i>
Product and activity description	<i>Describe the product and its production. Include details of location, social groups involved, and historical or cultural relevance.</i>

Species	<i>List all species used in the product's production.</i>
Rationale	<i>Explain why this product is relevant to its beneficiaries.</i>
Harvesting Protocol	<i>Describe the protocol in place, including the collection sites in the restoration area, and the safeguards in place to ensure that the regeneration rate of the NTFPs used surpasses its extraction rate.</i>
Indicators of Harvest Protocol health	<i>List the indicators used to determine the Harvest Protocol's health.</i>
Monitoring methodology of harvest protocol health	<i>Describe the methodology applied to determine the health.</i>
Timeline	<i>Determine implementation and lifecycle timeline.</i>
Risks	<i>Describe all material and potential risks.</i>
Required investment	<i>If applicable, describe the necessary investment to establish the production.</i>
Expected revenue/benefits	<i>Determine the expected revenue per year and its distribution breakdown.</i>

Benefit-Sharing *Mechanism*

💡 Benefits arising from the sale of Restoration Units must be shared among Community Members who must decide, alongside the Developer, the format of the benefit-sharing mechanism.

💡 The Developer must ensure the mechanism was co-created with the affected IPLCs in a form, manner, and language understandable to them, following FPIC guidelines as expressed in the [ERS Programme](#).

1. Applicable laws and regulations on benefit-sharing for IPLCs

- The Project **is not** subject to any law or regulation concerning benefit-sharing
- The Project **is** subject to any law or regulation concerning benefit-sharing

Insert all applicable laws, regulations, and benefits-sharing agreements applicable to the Project's jurisdiction. Describe how the Benefit-sharing Plan complies with it/them.

2. Summary of benefit-sharing mechanism

Write a summary of the benefit-sharing plan, including overall arrangements, the main stakeholders concerned and how these arrangements are appropriate to the context.

3. Benefit-sharing arrangements and schedule

Arrangement	Equivalent or direct amount in \$	% of Restoration Unit value	Concerned stakeholders	Dispersal schedule
<i>Form of benefit sharing</i>	<i>Amount</i>	<i>Proportion of the RU value</i>	<i>Stakeholders involved</i>	<i>Disbursement schedule</i>
